## TECHNICAL SPACE

# A PLATFORM FOR CREATIVE REUSE AND USER ENGAGEMENT

Co-funded by the European Union under GA n° 621037

**Create**, semantically enrich, and annotate cultural heritage collections online. **Discover** available content and knowledge in an expanding set of rich sources. **Launch** eclectic exhibitions and publish stories using a customisable interface. **Browse**, participate, and experiment in thematic Spaces. **Build** applications that reuse digital heritage using the platform as a back-end.

 [withdev@image.ntua.gr](mailto:withdev@image.ntua.gr)

The Technical Space engages cultural institutions, targets the culturally curious and invites creativity and innovation by:

- making cultural heritage and knowledge **available** and **accessible**;
- integrating with a full-fledged **suite of tools** for metadata interoperability and contextualisation;
- leveraging the programmable web to help developers create applications using a **powerful API**.
