Eureka3D: Implementing a Data Hub and services in the Data Space for Cultural Heritage

15 December 2023

#### EUREKA3D Data Hub. Demo Event

In this **online demo event**, we will present the status of development for Eureka3D Data Hub, a piloting action aiming to create e-infrastructure services for Cultural Institutions.

To create 3D models of cultural heritage collections is a new challenge for Cultural Institutions. What are the available solutions that cultural professionals can consider for their collections management workflows?

Register to this event and learn more about the Data Hub workflow!
