Agios Neophytos Enclosure: Public demonstration of the European Project EurekaED-XR

May 24 @ 10:00 - 11:30

The UNESCO Chair on Digital Cultural Heritage at the Digital Heritage Research Lab and its Research Centre "Mnemosyne" at the Cyprus University of Technology invite you to the groundbreaking public demonstration of the European Project EurekaED-XR dedicated to the Convent of Saint Neophytos.

Sunday, 24 May 2026

10:00 am, after the Divine Liturgy

on-site at the Convent of Saint Neophytos, Tala, Paphos

The event is part of the Digital Heritage Summit 2026, which will take place between 26-29 May in Limassol and is under the auspices of the Cyprus Presidency of the Council of the European Union.

For the first time in Europe, a monument, specifically the 12th-century Enkleistra of Saint Neophytos – the place of the Saint's ascetic life, study and burial, with exceptional Byzantine frescoes – "comes alive" through high-quality 3D digitization, Artificial Intelligence and immersive Virtual and Augmented Reality (VR/XR) technologies. Beyond a simple Digital Twin, the Memory Twin approach enriches the monument with knowledge, narratives and experiential experiences, allowing it to "speak" about its history, meaning and cultural significance.
